REASONS FOR ALLOWANCE

1. Claims 11-14, 19, 31-34, 39 and 42 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Claims 11-14 and 31-34 are allowable because none of the prior art discloses a capacitive sensing method/system comprising the synthesis of at least one virtual sensor capable of detecting one or more of the selected patterns of contact or proximity between a first object and a conductive sense element, and in the combination as claimed.

Claims 19 and 39 are allowable because none of the prior art discloses a capacitive sensing method/system comprising running a timing loop iteratively with different timing delays, and then driving an average value from multiple timing-based measurements obtained, and in the combination as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
